Download

Download PowerFactory 2015 (Thanks to @redhotkev for the tip on the correct location of this version). 1.PowerFactory 15.2 offline (thanks to @catlover911 for the tip on where to find this version). 2.PowerFactory 2015 standalone (power user who did not install PowerFactory) 3.PowerFactory 15.2 Classic with installer (simplified installer for users who did not install PowerFactory 15.1 or did not have PowerFactory in the list of installed applications) 4.PowerFactory 15.2 (current version of PowerFactory) 5.PowerFactory 15.1 (previous version of PowerFactory) 6.PowerFactory 15.1 standalone (older version of PowerFactory) 7.PowerFactory 17.1 (new PowerFactory 2017 version) 8.PowerFactory Classic with installer (PowerFactory installer with PowerLevel9.exe) 9.PowerFactory Classic (PowerFactory with nothing on the disks but a short description in the PowerStudio's Help) 10.PowerFactory Classic (PowerFactory Classic with PowerLevel9.exe) 11.PowerFactory 2017 standalone (PowerFactory 2017 with PowerLevel9.exe) 12.PowerFactory Premium with installer (PowerFactory 2017 plus PowerStudio 2017) 13.PowerFactory 2017 (PowerFactory 2017 without PowerLevel9.exe but with all its components) 14.PowerFactory 2017 standalone (PowerFactory 2017 without PowerLevel9.exe) 15.PowerFactory 2005 (PowerFactory 2005 with PowerLevel9.exe) 16.PowerFactory 2005 standalone (PowerFactory 2005 without PowerLevel9.exe) RUNTIME The runtime contains code for the particular PowerFactory version. The runtime is needed when you want to use your model with a new PowerFactory version which is not available in a stand-alone PowerFactory version. If you try to use a standalone PowerFactory version which is not supported by PowerFactory Premium, Runtime is the only way to execute the model. The Runtime needs the corresponding PowerLevel9.exe file. It is not possible to download PowerLevel9.exe on the PowerFactory website. You can get PowerLevel9.exe from our website, if you have to download any PowerFactory runtime. 16.1 Requirements PowerFactory Runtime supports the following model formats. The models (.psm) can be found here: • PSM with PowerLevel9.exe
