Why is the output of my program not displaying? What can I do to fix my not displaying error? A: You are mixing the names of functions (f_omega_f_momentum, p_momentum) with the array subscripts (omega_[i][j], p_[i][j]) for j f_omega_f_momentum(1, 1) will give problems, see below: for i in range(n): for j in range(m): print(p_[i][j]) I.e. your loops should be using those subscripts Edit: To see the problems and their resolution, run this sample program: n = 1 m = 1 def f_omega_f_momentum(i, j): i1 = i - 1 j1 = j - 1 return (0.5 * (p_[i1][j1] + p_[i][j])) - (p_[i - 1][j] + p_[i + 1][j]) def p_momentum(i, j): i1 = i - 1 j1 = j - 1 return f_omega_f_momentum(i, j) p_ = np.zeros((n, m)) p_[1, 1] = 1 p_[2, 2] = 2 p_ = p_momentum(1, 1) print(p_[1, 1]) p_ = p_momentum(1, 2) print(p_[1, 2]) p_ = p_momentum(2, 1) print(p_[1, 1]) p_ = p_momentum(2, 2) print(p_[1, 2]) p_ = p_momentum(3, 1) print(p_[1, 1]) p_ = p_momentum(3, 2) print(p_[1, 2]) p_ = p_momentum(4, 1) print(
